EDUCATION

React + Redux
CodersLab
10/2023 - 01/2024

Java Developer
CodersLab
01/2023 - 09/2023

Design of technological processes
EMT-Systems/TUV Nord
10/2019

Programming and operation of CNC machines
EMT-Systems/TUV Nord
10/2018

Highschool
Zespół szkół nr 3 w Jastrzębiu-Zdroju (School No. 3 in Jastrzębie-Zdrój)
01/2023 - 09/2023

ABOUT ME

I am a junior full-stack developer capable of creating high-quality web applications. My skills include Spring, React, SQL, and many other technologies.
My commitment to best programming practices, including test-driven development (TDD), and the use of tools such as JUnit, Mockito, and Selenium ensures high code quality.

Additionally, I have experience working with cloud platforms, including Azure, and understand continuous integration and delivery using tools like Jenkins.
I am ready to take on challenges related to designing, developing, and maintaining web applications and am seeking opportunities where I can leverage my skills to bring value to the company and its clients.

PROJECTS

Project Charity

- **Project description**
- **Github**

Task Manager/Time Tracker

- **Project description**
- **Github**

Microservices system connected with REST-API

- **Project description**
- **Github**

CRUD Webapp

- **Project description**
- **Github**

Aneta's portfolio - React commercial project

- **Project description**
- **Githhub**
- **Production version - www.maciejakaneta.pl**

TECHNOLOGIES

- Java
- Spring Data
- Spring Security
- MySQL
- REST
- WebSocket
- JavaScript

- HTML
- CSS
- Docker
- JUnit
- Mockito
- React
- Redux

FAMILIAR SOFTWARE

- Windows
- Linux
- Git
- Intellij IDEA
- Eclipse IDE
- VS CODE

- Postman
- Jaspersoft Studio

LANGUAGES

- **Polish:** native
- **English:** B2
- **Dutch:** B1

DRIVING LICENCE

- Category: B

EXPERIENCE

Junior Java/Groovy Developer   2023-current

Eq System - Katowice

- hybrid teamwork in SCRUM team
- PMS department - payroll and HR solutions
- active participation in retrospectives, planning, and refinements
- independently selecting tasks from the backlog
- writing functional enhancements for a complex system of payroll component algorithms
- resolving errors and fixing defects reported by testers and clients
- writing reports in Jaspersoft Studio
- utilizing an internal training platform to continuously improve skills

CNC Programmer/Operator   2018-2023

Boal Systemen B.V. - Netherlands

- operating CNC machines
- writing programs for CNC machines (CAM or ISO)
- printing orders and drawings from the system
- rebuilding machines for specific needs
- writing programs based on technical drawings
- selection of appropriate tools for machining
- reviewing and optimizing programs as needed
- checking products with drawings to check tolerances
- registration of completed orders in the system

Production worker - glass recycling   2015 - 2017

Maltha Glas B.V. - Netherlands

- checking whether large stones end up in the crusher
- maintaining cleanliness (sometimes visibility was only a few meters)
- ensuring that both shakers do not become clogged with waste

Warehouseman   2013 - 2015

SMAK Sp. z o. o. - Poland

- storage of loose and liquid substances and packaging for food production
- issuing the necessary semi-finished products for production from the warehouse
- weighing raw materials needed for production according to plan
- sometimes managing a team of 4 people
- accepting deliveries and managing returns

# Coders Lab
SZKOŁA IT

Dyplom ukończenia kursu IT

Java Developer

Mateusz Maciejak

Kurs obejmował 213 godzin wykładów oraz zajęć praktycznych z wykładowcą.

Zakres tematyczny: podstawy Java, programowanie OOP, bazy danych SQL, Servlety, JSP, podstawy JavaScript, Spring, Hibernate, Spring Boot, Rest API, projekt końcowy.

Marcin Tchórzewski
Coders Lab CEO

Jacek Tchórzewski Head of Education

Numer wpisu do RIS: 2.14/00061/2015
Numer dyplomu: 84/09/2023

10 września 2023

Coders Lab
SZKOŁA IT

Certyfikat ukończenia kursu

JavaScript Specialist: React + Redux

Mateusz Maciejak

Kurs obejmował 36 godzin wykładów oraz zajęć praktycznych z wykładowcą.

Zakres tematyczny: zaawansowany JavaScript, projekt SPA (single-page-application) z wykorzystaniem React Router, biblioteka React Redux, REST API.

Marcin Tchórzewski
Coders Lab CEO

Jacek Tchórzewski Head of Education

Numer wpisu do RIS: 2.14/00061/2015
Numer certyfikatu: 68/01/2024
